

Aristel Voice Mail Card

Aristel Voice Mail Card (D1VMCA) is embedded in our Digital Key Telephone Systems DV-38 and DV-96. It is available with 2 to 4 ports and provides 30 hours of memory and provides 66 mailboxes.

D1VMCA supports a wide array of Voice Messaging Features, Auto Attendant Features, Live Recording Features, off-site notification and fax tone detection.

The in-skin Voice Mail Card integrated into these systems is more easily programmable, more user-friendly, more efficient and more reliable than any PC-based Voice Mail Systems.

D1VMCA's smart design, flash memory, features and competitive cost make it an optional voicemail solution for small to medium sized enterprises.

Automated Attendant Features:

- Daytime and nighttime operator assistance
- Busy tone detection
- Fax detection
- System schedules
- Call transfer
- Opening greeting
- Holiday/Day-Service/Lunch-break/Night-Service greetings
- First/Second group ACD greetings
- Two companies auto-attendant supported
- Remote greeting recording
- Morning call prompt

Voice Mail Features

- Up to 66 mailboxes
- Mailbox automatic creation
- Announcement of number of messages
- Date and time stamp
- Personalized mailbox
- Personal greetings
- DID inward mail box
- Message notification
- Message screening
- Message deletion
- Selectable direct inward mail box
- Remote mailbox operation
- Windows programming utility supported
- Personal security code
- Administrator security code
- Live Record (under development)
- Virtue mail box (under development)
